

We do more than building buildings.
We're building *solutions.*

PROFESSIONAL EXPERIENCE

BRIAN A. (ANDY) CHAMBLISS, *PROJECT MANAGER*

Andy Chambliss joined Richard K. Davis Construction Corporation in 2021 as an assistant project manager. Andy's construction background began well before 2021, however that was not his original plan. Andy received his Bachelors in Basic and Applied Science Degree majoring in Biochemistry in 2012, with aspirations to further his education to enter the medical profession. His path changed when he began working out of college in the telecommunication industry constructing and maintaining tall steel structures in various parts of the country. By joining Richard K. Davis Construction Corporation, he is learning from the area's leading design/build construction team in all areas of managing construction from overseeing their self-performed trades of concrete placement and finishing, masonry, carpentry, structural steel erection, and architectural metal roofing to oversight of all subcontract trades. He is refining his skills in balancing function with aesthetic in design, budget development, cost control, and construction management.
