

We do more than building buildings.
We're building *solutions.*

PROFESSIONAL EXPERIENCE

ROBERT S. MULLINS, *PROJECT MANAGER*

Robert Mullin's construction experience began at an early age, working with his father to construct a wide variety of structures, including a 3000sf veterinary clinic, a two story, three bedroom, two bath lake cottage, an 800sf screen porch, two docks over the water with an enclosed boathouse, a 5000sf hay storage shed and a cattle corral with eight foot high walls and a truck loading chute. In his senior year in high school, he gained valuable insight about the mechanics of construction by dismantling a 17 year old building piece by piece and salvaging all the lumber, trusses, concrete block, doors, windows, electrical and plumbing fixtures, air conditioners and exhaust fans. These numerous hands on experiences drew Robert to apply to be accepted into the nationally renown University of Florida School of Building Construction, graduating

in 1976 with a bachelors degree in Building Construction. He was hired by Richard K. Davis Construction Corporation as an estimator/salesman/project manager that same year and has actively worked in that capacity ever since. He holds a Florida General Contractors License and attend continuing education classes to keep the license current.

Prominent Project Experience:

Paar Center, Port St. Lucie

New construction/retail – wholesale

Sunrise Ford, Fort Pierce

New construction and multiple remodels/retail – wholesale

A-1 Truss, Fort Pierce

New construction/manufacturing

Cold Air Distributors, Fort Pierce

New construction, multiple additions and complete reroof/industrial

Safe and Sound Storage Center, Palm City

New construction, Self Storage

Seacoast Storage, Fort Pierce

New construction, Self Storage

Backus Art Gallery, Fort Pierce

Remodel, reroof, expansion/institutional – community

Jaslo Center, Port St. Lucie

New construction/retail – wholesale

Advanced Machine and Tool, Fort Pierce

New construction, multiple remodels and expansion/manufacturing

Florida Municipal Power Agency, Fort Pierce

New construction/industrial

Sun AG, Fellsmere

New construction/agricultural

One World Fruit Sales, Fort Pierce

Major expansion & renovation/agricultural
