

We do more than building buildings.
We're building *solutions.*

AGRICULTURAL – GOLF COURSE
MAINTENANCE

McARTHUR GOLF CENTER

HOBE SOUND

Scope and Responsibilities:

A complete golf course maintenance compound, which included a main-tenance building that housed this department's offices and bathrooms, also provided equipment repair and storage with separate buildings for fertilizer/chemical mix fill storage and equipment wash down. A fueling island and soil bins were built adjacent to the buildings to make for a complete compound.

Date of completion:

November 2002

Total square footage:

13,974
